(code 20401001 or 20401002)

Optical edge sensors set with cable TX-6m or TX-10m

**AIR SWITCH SET**  
(code 20403040)

AIR SWITCH SET

The F-BOX-TILT is equipped with an integrated WiFi module that enables communication with a wireless position sensor to control garage/industrial doors. With the help of the "F-linX" APP via smartphones and thanks to the connection with the "Security Center" in the F-linX app the F-BOX-TILT can monitor all door security information in real time.
